17. Primary external wall material

Wood / Horizontal Siding

22. Architectural style / building type:

Other Style (Wood Frame Side Gabled Dwelling)

## **Architectural Inventory Form**

(Page 2 of 5)

### 21. General Architectural Description

The Museum Miner's House is a one-story wood frame building, built with a rectangular side-gabled plan. The building measures 28' N-S by 14' E-W, with an 18' by 12' shed-roofed extension located at the north end of the west (rear) elevation. The building is supported by a low sandstone foundation, and the exterior walls are comprised of painted light brown, narrow, horizontal wood siding, with painted dark brown 1" by 4" corner boards. The sidegabled roof is moderately-pitched, and has wood shingles and boxed eaves. There are two red brick chimneys - one located on the ridge, and the other on the roof of the shedroofed extension. The building's windows are entirely single 2/2 double-hung sash, with painted brown wood frames and surrounds, and with wood cornices. The facade is located on the east elevation, and is symmetrically arranged. A painted light brown wood-paneled entry door has one upper sash light, and features projecting carved rails, and carved panels. This wood-paneled door is protected by a glass-inwood-frame storm door, and opens onto a 2-step wood porch. A secondary entrance is located near the west end of the south elevation. The entry here consists of a painted light brown wood analed door, with two narrow upper sash lights, which norch.

A small **She** cabin. This grade found gabled root 2x wood rametal strap...

to the west of the wood timbers on dwalls, and a sidewood decking and r, side hinged with ust elevation.

# 29.Construction History (include description and dates of major additions, alterations, or demolitions:

red lance

Boulder County Assessor records list 1908 as this building's date of construction. There have been no additions within the past fifty years. An 18' by 12' shed-roofed extension to the west elevation, may be part of the original construction. If it is an addition, it predates 1950, as it is depicted on a Boulder County appraisal card from that year. Sanborn insurance maps are unavailable for this lot and block.

#### 23. Landscape or setting special features:

The Museum Miner's Cabin is located on the west side of Main Street, at the south end of downtown Louisville. The Museum building is to the south.

34. Site type(s):

Residence / Museum Building

#### Historical Background

This property was associated with the Tomeo family in Louisville from the time it was built, until the 1980s, when it was acquired by the City of Louisville for interpretive use as a historic miner's cabin. Felix and Lena Tomeo (Tomao) came to Louisville in the years between 1898 and 1903. Felix, like many Louisville men of his generation, worked as a coal miner. The 1904 Boulder County Directory lists Felix and Lena Tomeo, as well as Flora Tomeo, simply as living at "Barclay Place." This property is within the Barclay Place Addition, which had been platted in 1897. Other members of the Tomeo family, also living in the Barclay Place Addition, included Mike and Lucia Tomeo, as well as Nick Tomeo, who was in the saloon business. By the 1910s, the Tomeo family is listed at this address, then known as 514 Second Street. Felix had evidently passed away by 1921, as Lena is listed here as his widow. The 1928 Boulder County Directory lists several members of the Tomeo family living at this address. In addition to Lena, these included, Dominic (a driver for L.W. McCorkle's City Market), Eugene and Joseph (both laborers), and Rena and Rosa (both students). Dominic Tomeo continued his employment at McCorkle's City Market for several years. In 1936 he was working as a clerk at the store, and in 1940, he was a meat cutter there. By the early 1950s, Joseph Tomeo had opened up "Joe's [sheet] Metal Shop" on the lot just to the south of this cabin. Joe and Dominic Tomeo both worked at the sheet metal shop, which existed into the early 1970s. During the 1980s, the City of Louisville negotiated the purchase of three lots at the northwest corner of Main and South Streets, from the Tomeo family. The building at the corner (formerly the Jacoe Grocery and Market) was renovated for use as the Louisville Historical Museum, the remains of the sheet metal shop were cleared away, and this small dwelling at 1011 Main Street was preserved for interpretation as a miner's cottage.

#### VI. SIGNIFICANCE

37. Local landmark designation:

Yes

No xx

Date of Designation: n/a

- 38. Applicable National Register Criteria
- xx A. Associated with events that have made a significant contribution to the broad patterns of our history;
  - B. Associated with the lives of persons significant in our past;
- XX C. Embodies the distinctive characteristics of a type, period, or method of construction, or represents the work of a master, or that possess high artistic values, or represents a significant and distinguishable entity whose components may lack individual distinction;
  - D. Has yielded, or may be likely to yield information important in history or prehistory;

Qualifies under Criteria Considerations A through G (see Manual).

Does not meet any of the above National Register criteria.

39. Area(s) of Significance:

Architecture; Community Planning and Development; Ethnic Heritage / European

- 40. Period of Significance: cα. 1908 1950
- 41. Level of Significance:

National:

State:

Local:

xx

#### 42. Statement of Significance

This building historically significant, relative to National Register Criterion A, for its association with residential development in Louisville during the first half of the twentieth century. It is also historically significant for its association with Louisville's ethnic Italian heritage, represented at this location by the Tomeo family. The building is architecturally significant, under National Register Criterion C, as a representative example of a wood frame sidegabled dwelling.

## 43. Assessment of historic physical integrity related to significance:

This building displays a high degree of historical integrity. There have been no additions within the past fifty years. The building is in good condition, and is being well maintained.

Resource Number: 5BL908

Temporary Resource Number:

## **Architectural Inventory Form**

#### VII. NATIONAL REGISTER ELIGIBILITY ASSESSMENT

44. National Register eligibility field assessment:

Eligible: Not Eligible:

Need Data:

45. Is there National Register district potential?

Yes:

No:

Discuss:

Buildings on Main Street in downtown Louisville do have the potential to comprise a National Register Historic District. This building, in association with the main museum building next door, could serve as the district's northern

anchor.

If there is National Register district potential, is this building:

Contributing:

Noncontributing:

46. If the building is in an existing National Register district, is it:

Contributing:

n/a

Noncontributing:  $n/\alpha$
