Front Range Landfill
1830 WCR 5
Erie
Randy Tourville
303-673-9431

No other landfills are currently approved to accept ash and debris from buildings completely destroyed by these fires. In order to get approval to accept these materials, landfills must request and receive permission from the Hazardous Materials and Waste Management Division (HMWMD) which will include agreement to implement certain best management practices designed to protect landfill workers and nearby public from potential asbestos hazards.

- **Please contact the landfill before loads are taken there to confirm waste acceptance, alert them that the material is coming, and initiate a waste profile. The landfill should be informed that the material has come from the Marshall Fire area and may contain suspect asbestos-containing materials or other hazardous materials. Please take debris directly to the landfill.**
- **Recycling of metal and concrete foundations is permissible under the following circumstances: Metal debris must be washed clean of ash/debris prior to recycling. If you wish to recycle a concrete foundation, the concrete must be inspected by a Colorado certified asbestos building inspector to determine that it is free of asbestos-containing materials prior to recycling.**
