Development Review Flowchart – Projects Requiring Public Hearings

The following flowchart represents the typical review process for Land Use Applications in the City of Louisville that require public hearings with the Planning Commission and City Council. Please see the <u>Land</u> Use Application webpage for the most up to date forms and information.

Civil CDs may be submitted as early as the second round of review, depending on complexity of project/number of unresolved design factors.

Building permit review in advance of City Council approval requires upfront payment of plan review fees (will not be approved by the planning dept. until recordation with the County)
