Mayor Maloney called the meeting to order and noted that this is meeting will be an initial discussion of what projects the Council wants to consider for the 2024 Work Plan. The goal is to use the list to inform the 2024 budget process and align resources.

City Manager Durbin reviewed the status of all of the 2023 Work Plan items.

Councilmembers each listed 5-10 projects they would like to see considered for 2024. Members then reviewed the topics and grouped them into common areas including Comprehensive Plan Work, Land Use Code Revisions; Animals; Transportation; Recreation; Economic Vitality; Open Space; Housing, and Miscellaneous.

Council will use this list as a starting place for the final 2024 Work Plan. That discussion will take place later this year.
