- B. Awards from the Historic Preservation Fund may differ in type and amount from those requested on an application.
- C. Recipients must submit their project for any required design review by the Historic Preservation Commission and acquire any required building permits before work has started.
- D. All projects are subject to zoning and building code review and approval of a grant does not constitute building permit approval.
- E. All work approved for grant funding must be completed even if only partially funded through this incentives program.
- F. Unless the conditions of approval provide otherwise, disbursement of grant or rebate funds will occur after completion of the project and shall be accompanied by proof of payment. Reimbursements are processed as payments to the Property Owner or Grantee.
- G. The incentive funds may be considered taxable income and Applicant should consult a tax professional if they have questions.
- H. The grant application will be reviewed in accordance with all relevant City policy, including but not limited to the categories of eligible expenses described below.

Eligible expenses fall into one or more of the categories below. Interior improvements for protection, stabilization, or code-required work are eligible for grants. Other interior improvements are not.

- **Preservation** applies methods to sustain existing form, integrity, and materials. Approved work focuses on repairing exterior historic materials and features rather than extensive replacement and new construction.
- **Rehabilitation** facilitates new uses and standards for a building through repair, alterations, and additions that preserve those portions or features that convey its historical, cultural, or architectural significance. Rehabilitation acknowledges the need to alter or add to a historic property while retaining the property's historic character. Upgrading mechanical, electrical, and plumbing systems and other code-related work may be considered rehabilitation.
- **Restoration** accurately depicts the form, features, and character of a property as it appeared at a particular period of time. Approved work focuses on exterior work and includes the removal of features from other periods in its history and reconstruction of missing features from the restoration period.
