Members of council,

The consent agenda of January 2 lists the following item:

Staff recommends the City Council approve changing the January 9 and January 23 study sessions to special meetings to allow Council to give staff direction regarding discussion items at those meetings if needed.

Before approving this item could you explain the following to the public?

--Will these discussion items be taken from the approved 2024 work plan? Would they be items not on the current work plan? Would they be listed on the work plan but being moved to a higher priority?

--Are there specific items that council members have discussed among themselves or with staff that you are planning to discuss at these meetings?

--How would altering staff direction on the items to be discussed impact staff time? How would a change in direction impact other agenda items.

I would like to ask for clarification for the public before this consent agenda item is approved.

Thank you for your consideration,

Sherry Sommer
